DYNAMICS OF THE POPULATION’S SOCIO-ECONOMIC WELL-BEING AND SOCIO-POLITICAL ATTITUDES: March, 2015

Section: Public opinion monitoring

Language: Ukrainian

Abstract: *The results of the study, conducted in December, 2006 – March, 2015, reflect the dynamics of Ukrainian population’s self-assessments of their financial standing, the gap between desired and actual earnings, demarcation of income, the prevalence of shadow income, etc. Authors also present the trust level and role evaluation of the authorities and various national and international organizations and institutions.*

Keywords: *population earnings, assessment of financial status, socio-economic well-being, attitudes to government and public institutions.*
